■ Pro Tip — How to Turn One Idea Into Three Posts

Take any title above and write three variations:

1. The beginner version — "What is X and how does it work?"
2. The how-to version — "How to do X step by step"
3. The honest take version — "Is X really worth it? The truth"

One idea becomes a content cluster. A content cluster builds topical authority. Topical authority improves your rankings across all related posts.

Need help writing any of these posts? The **AI Thinking Partner Blueprint** shows you how to use AI to take any idea and turn it into a fully written, SEO-optimised blog post — in your own voice, in a fraction of the time.
